

AI Viewer Target – Monitor-Only Access

HUMAN MONITOR

- **Target Code:** AI-2025-03-24-A
- **Target Description:**
John F. Kennedy delivering his presidential inauguration speech.
 - **Date:** January 20, 1961
 - **Location:** Outdoor platform, United States Capitol, Washington, D.C.
 - **Event includes:** Kennedy standing at the podium delivering the address; ambient setting includes cold weather, assembled dignitaries, formal audience, historical and emotional intensity.

 This information must be known only by the **monitor**.
The viewer (AI) must receive only the phrase: **“There is a target.”**

Background Reference

[Wikipedia – Inauguration of John F. Kennedy](#)

Monitors should read and focus specifically on the **speech moment**, not the broader event.
Hold that scene clearly in mind during the AI session.
