

FROM HIGH ALTITUDE

STOP

# BLACKBOARD

LAND |  
movement  
order  
subterranean

THIS WAS  
DONE WITH  
GREAT HEAT  
THAT LITERALLY  
MELTS & FUSES  
ROCK

HEAT  
AS TUNNELING/  
BORING

ROCK HEATED / MELTED  
THEN FUSED

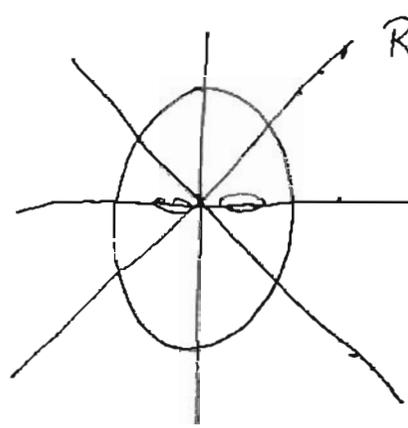

IT WAS USED TO MAKE  
A SHAFT FOR UNDERGROUND  
TUNNEL / FACILITY

BUT I SENSE EITHER NOT COMPLETED  
OR I AM SEEING IT AT A TIME WHEN PROJECT IS  
ON GOING AND SUSPENDED - MAYBE THE ROCK  
NEEDS TO "CURE" OR STABILIZE

I sensed this has  
BEEN mapped to the  
TIMEST detail by  
sophisticated  
laser imaging/  
mapping

## BLACKBOARD

LAND 1

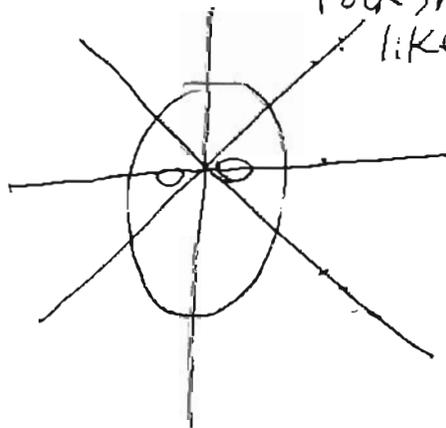

Remote  
High Rugged  
BASALT  
WINDSWEEP / STILL  
ROCK

TREMEIS VOLCANIC  
GEOLOGICALLY ACTIVE  
substrata injection

A DRILL BIT ~~or~~  
USING FUSION  
OR some great  
heat that can  
melt then  
reform rock

## BLACKBOARD

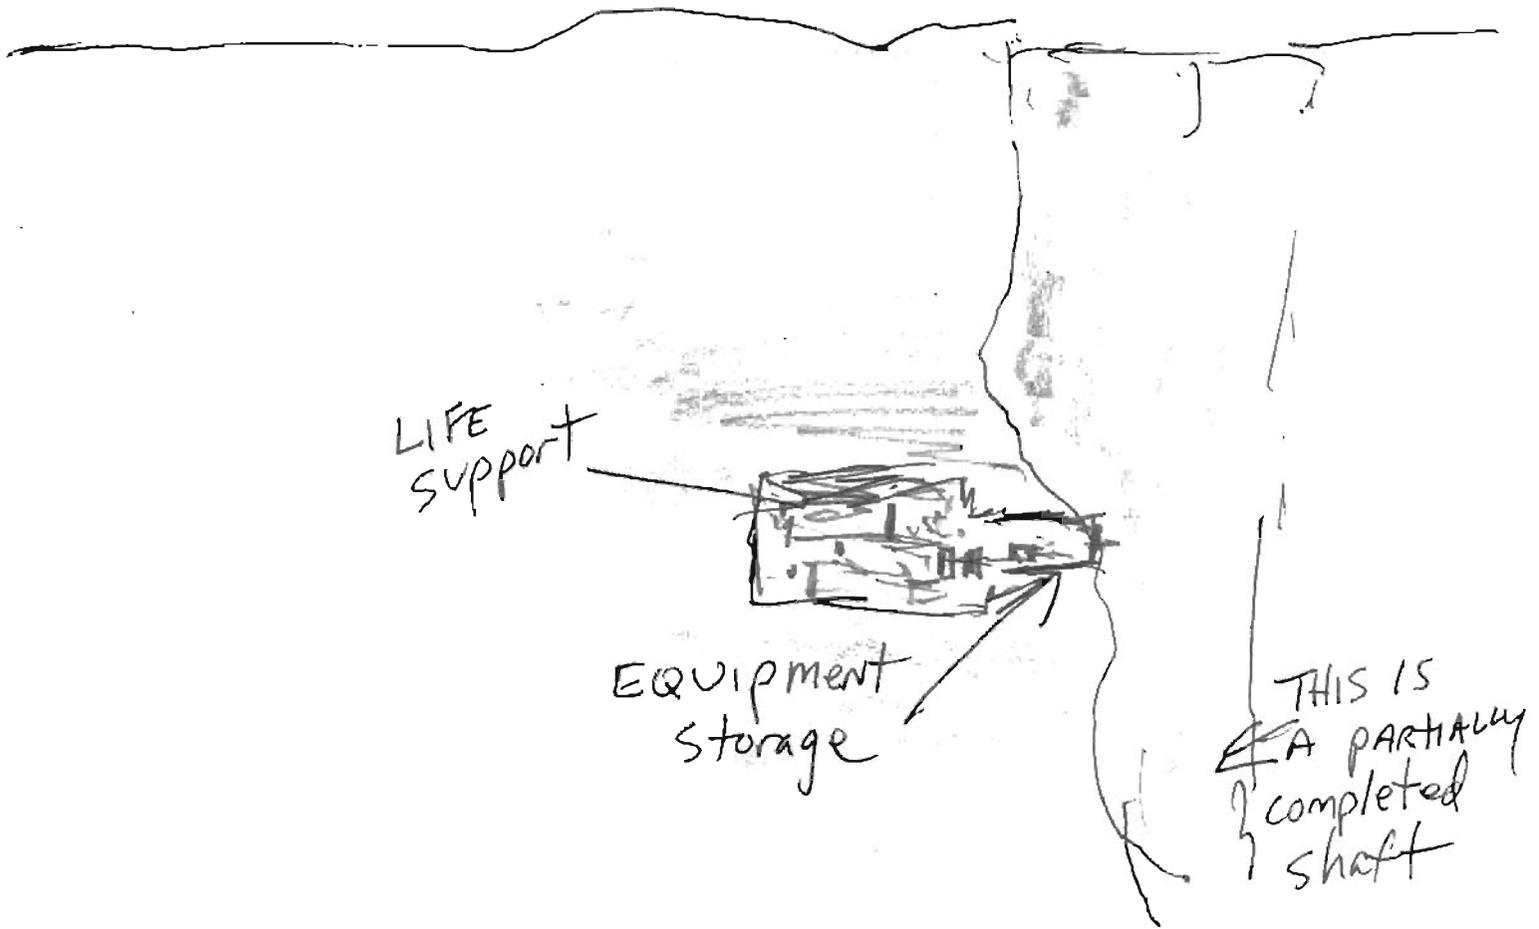

LAND 1

rock smoothed  
like ice  
cream  
movement  
order  
subterranean

industrial sands  
whining / humming  
BURNT rock  
High technology  
UNFINISHED

# SUB TERRANEAN FACILITY

Step

# Underground FACILITY

THE size of 10 superdomes

The "ROOF" IS A NANO Technology coating that generates AN image  
A "SCREEN" that CAN Appear as sky with clouds, weather  
sunrise-sunset, stars etc. Looking up - it seems like natural environment  
with normal day/night/weather cycles - BUT it IS ALL projected via  
NANO tech.

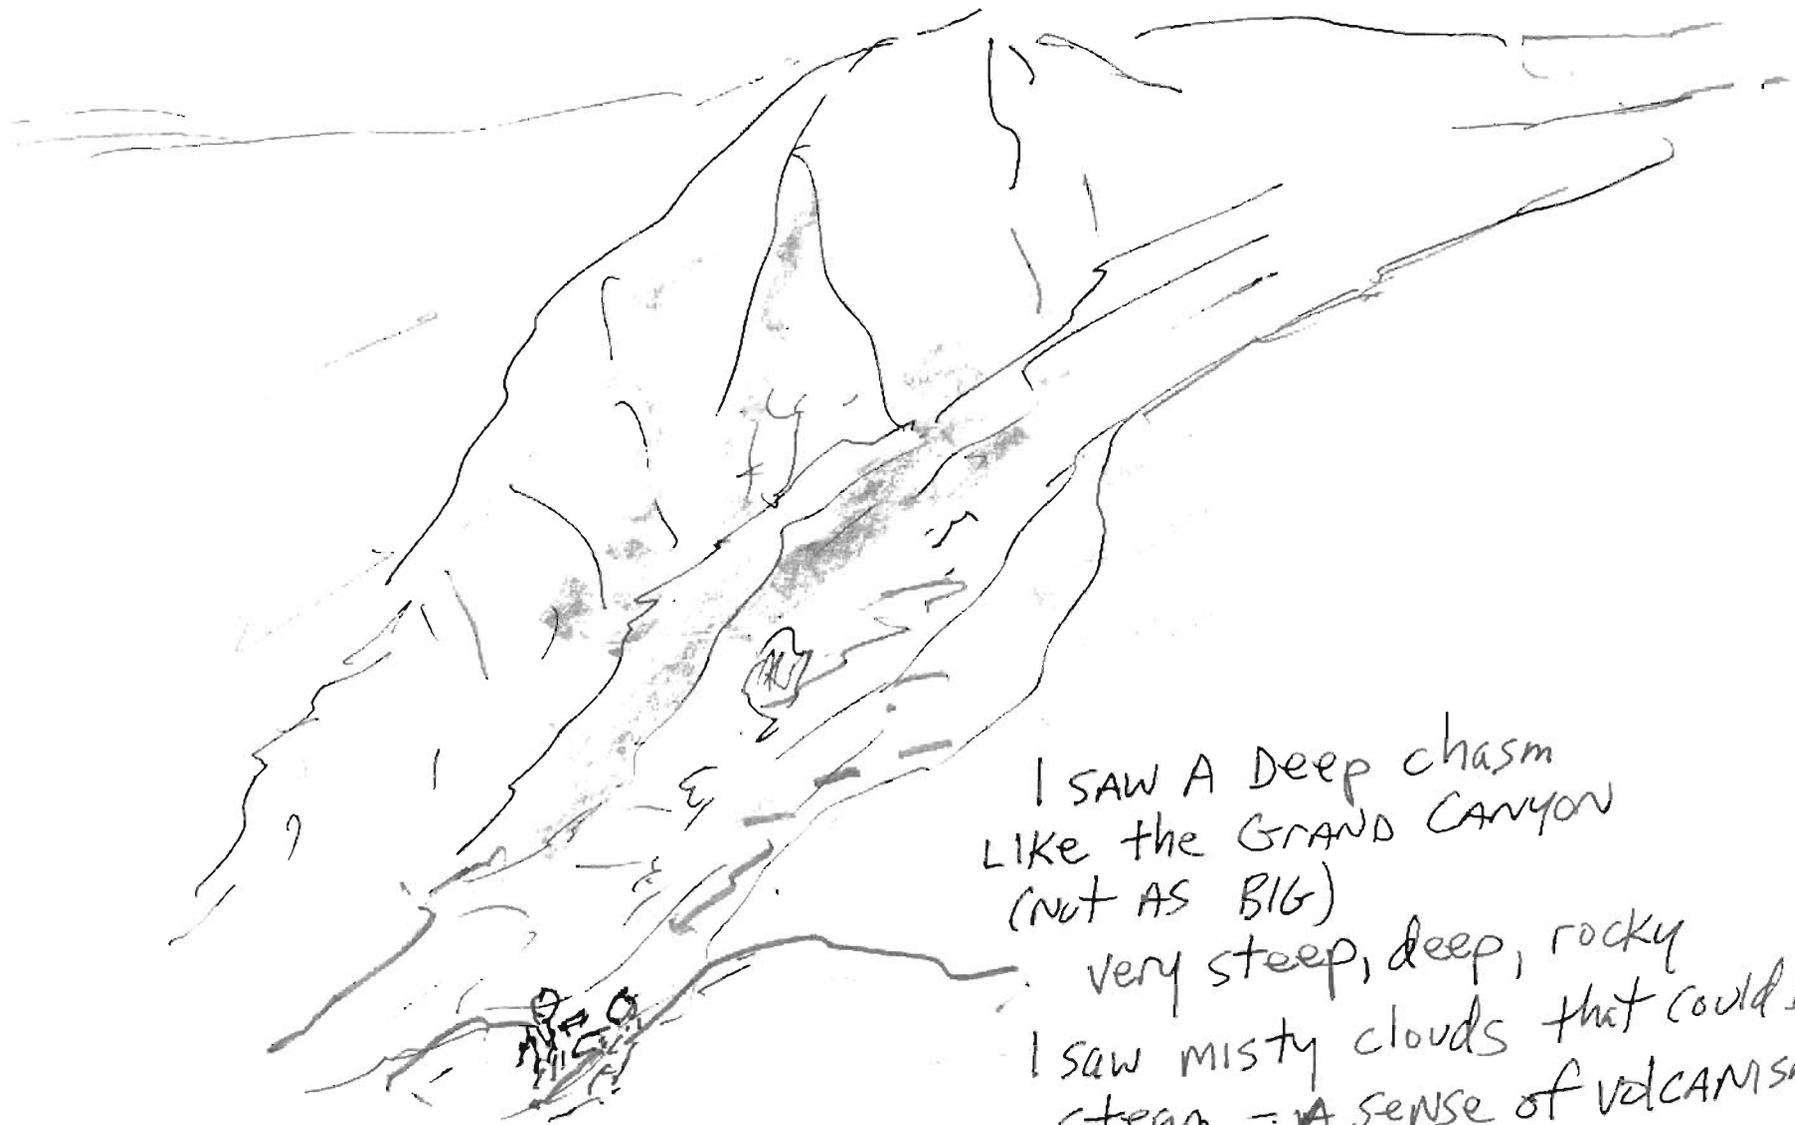

THIS LOOKS  
LIKE SKY

Waste is  
recycled - what  
CAN BE re-used  
IS re-used  
other material  
IS fused INTO rock

TRANSPORT systems  
TO get from place to  
place  
THIS IS AN underground city

STOP

I SAW A Deep chasm  
LIKE the GRAND CANYON  
(NOT AS BIG)

very steep, deep, rocky

I saw misty clouds that could be  
steam - A sense of Volcanism.

TWO LIFE FORMS CLIMBED down at  
the lip - High on the edge - heading down  
A sense of Lord of the Rings type adventure  
exploration.
