STEP

Play Fair A.5

I see the RING OF FIRE  
GLOWING / ruptured / ON FIRE  
MOLTEN - LIKE A FIERY GASH  
A glowing wound on  
the planet.

The earth is not always  
AS we at this moment  
perceive it. How we see it  
is a mere sliver of time.  
The earth has changed many  
times AND WILL go thru  
GIANT upheavals that will  
re-form the surface. New  
geological features - new  
life forms. It is the  
ultimate recycler. It  
recycles itself.  
THIS IS A CLEANSING.

IT IS MAGNIFICENT AND  
INSPIRING TO get AN INSIGHT  
INTO this.
